# VIDEO ANALYSIS

## VIDEO ANALYSIS by **FOXSTREAM** SMART VIDEO ANALYTICS

### ■ **Reliable and powerful solution:**

Omission-free reliable Detection :  
Systematic detection whatever the environment with almost no false alarms.

### ■ **Immediate alarm qualification:**

by alarm receiving centers or central control stations.

### ■ **End-to-End assistance support:**

recommendations and expert advices, implementation assistance and training by our expert team.

The objective is to capture any intruder in the monitored location regardless of environmental conditions while filtering false alarms.

Thanks to our integration with VMS, CMS, PSIM... the video of the alarm is sent instantly to alarm receiving centers or monitoring stations enabling the right decision to arrest the intruder immediately.
